An average of $47 was received from the twenty-three milk dairy cows that were sold, a weanling mule colt sold for $73, a 4-year-old draft filley brought $175, spring heifer calves $18.50, and yearling heifers sold for $25.50 to $32.

A number of the members of the Rebekah lodge, of which the Misses Noble were members, were also present.

RELIGIOUS CENSUS

TAKEN OF THE STUDENTS OF THE STATE NORMAL SCHOOL.

TALK BY LIBRARIAN WELLS

At Chapel Friday Morning on Chili—152 Church Members Out of an Enrollment of 246.

The Ministerial Alliance of this city has been taking a religious census at the Normal the past week. This is done in order to acquaint the ministers of the different churches with the out-of-town students and to personally invite them to attend the church services. Each student fills out a card with his name, city residence, church membership, or if not a church member the church he prefers. Out of 246 students enrolled 152 are members of a church. They are distributed in the churches as follows:

Methodist Episcopal, 46.
First Christian, 41.
First Baptist, 24.
Methodist Episcopal, South, 17.
Presbyterian, 14.
Catholic, 10.

One of the most interesting and practical talks that has been given at the Normal chapel was Prof. C. E. Wells' talk Friday morning on the social and political affairs of Chili.

Mr. Wells just lately returned from Chili, where he was employed in the capacity of secretary to the United States minister to that country.

"By far the most interesting feature of the forty days sea voyage," said Mr. Wells, "was the passing through the Strait of Magellan. The scenery on the coast and far into the interior is beautiful beyond description."

Mr. Wells discussed briefly the public school system, the customs of the people, the climate and structure of the country, and the excellent government. Mr. Wells closed his talks with an invitation to the students to come to the library and read something of the history of the South American Republic and the biograph of some of her national heroes.

SHOW CROWD FRIDAY WAS VERY ORDERLY

The large crowd that attended the Buffalo Bill show in Maryville Friday was very orderly and not much trouble was had. Chief of Police Wallace said Saturday:

"Only three were arrested and they were for drunkenness. The crowd was certainly orderly."

The show left Maryville late Friday night for Chillicothe, where they will show today. Some damage to East First street by the heavy show wagons that went over it last night was reported to Mayor Robey.

ARRESTED ON CHARGE OF RAISING A CHECK

Oscar Coussins of Hopkins was arrested Friday and locked in jail on a charge of raising a check that was given to him by A. Wilder from $2 to $5. The check was not cashed.

IN DITCH ALL NIGHT

JOHN NICHOLAS' CRIES FOR HELP WERE UNHEEDED.

STRICKEN WITH PARALYSIS

Without Recovering Consciousness He Died—Funeral at Burlington Junction Sunday.

John Nicholas, a bachelor farmer, who made his home with his brother, Henry Nicholas, three miles southeast of Burlington Junction, died at his brother's home Friday night as the result of a stroke of paralysis that came on him a week previous.

Mr. Nicholas left his brother's home about 7:30 o'clock the evening of September 14 to get some of his horses that had strayed from his pasture to the home of S. S. Webb, a neighbor. While returning home with the animals and when within a quarter of a mile from home, he was stricken with paralysis and fell into a ditch at the side of the road. He cried out for help, and his calls were distinctly heard by the Webb and Nicholas families, but each thought it was some one out making merry and gave the calls no heed.

The unfortunate man laid unconscious by the road all night. A rain fell in the night, and the exposure made his chances for recovery very improbable.

He was found the next morning by his brother, who passed on the road with a team and plow. His horses shied at the object in the ditch, and when Mr. Nichalos saw it was a man lying there he ran to the Webb house for assistance, but he did not know the man was his brother until he returned with Mr. Webb.

A physician was summoned at once and the sick man was taken to the Nicholas home. He was unable to speak before he died.

His brothers and sisters, Henry Nicholas, Thomas Nicholas of Fort Collins, Col.; P. L. Nicholas and Mrs. William Alderman of Stanton, Neb., and Mrs. William Dobson of Edgar, Neb., were all with him when death came and for several days previous.

The funeral will be held at 10 o'clock Sunday morning at the Junction. Burial will take place in the Junction cemetery.

PRESIDENT OF WHAT?

Every time the President speaks in defense of his vetoes of the tariff revision bills he makes bis case worse than it was. If he continues at the present rate he will soon have convicted himself not only of bad judgment but of unpatriotic motives as well.

His last speech, delivered at Grand Rapids, Mich., prompts the question, "Is Mr. Taft President of the United States or of the Republican party?" Speaking of the wool bill he said: "I had no adequate information, and had been furnished none, upon which I could say that the bill presented to me was in accord with the Republican platform of protection upon which I was elected, and to which I am in honor bound to square my offical act and policy."

Mr. Taft did have adequate information that the tariff law enacted by the protected interests following his election was not satisfactory to the people who elected him. He had adequate information that a relief from this oppressive law was demanded. This information was afforded in the Congressional elections that followed the signing of that bill when a stand pat Republican majority was swept out of the House of Representatives and the control of the Senate was turned over to the Democrats and Progressive Republicans.

The force that this emphatic information carried to everybody except the President is seen in the fact that a divided Congress, one branch Democratic and one branch Republican, responded in the best compromise measures upon which they could agree. Both House and Senate surrendered something to the other and produced bills giving an acceptable degree of relief which the President promptly vetoed because he was not sure that they conformed to the specific declarations of the Republican platform.

This platform with which the President now hopes to shield his errors calls for protection equal to the difference between the cost of production at home and abroad, together with "a reasonable profit" to the producer. The joker is in the "reasonable profit" declaration. Who is there to say but the manufacturer when he has a reasonable profit? And when did a manufacturer ever admit that he was making more than a reasonable profit?

Rather than accept the judgment of more than 225 members of the House and two-thirds of the Senate composed of both Democrats and Republicans, Mr. Taft preferred to wait upon a raw tariff board created by himself without warrant of law to say what relief the American people should have.

The constitution does not contemplate the possibility of a presidential veto except when the President absolutely knows the bill to be bad, nor does the constitution contemplate the veto of a bill passed by a decisive majority in Congress fresh from the people simply because the President is not convinced that it conforms to some particular party platform already repudiated by the people.

Mr. Taft does not seem to regard the tremendous effort required to pass an acceptable bill through a divided Congress nor the impossibility of passing a bill through a Democratic House and a progressively controlled Senate that will conform to the exact specifications of a stand pat platform.

Which Are You?

The two kinds of people on earth I mean
Are the people who lift and the people who lean.

Wherever you go you will find the world's masses
Are always divided in just these two classes.

And oddly enough, you will find, too, I ween,
There is only one lifter to twenty who lean.
In which class are you? Are you easing the load
Of overtaxed lifters who toil down the road?

Or are you a leaner, who lets others bear
Your portion of labor and worry and care?

—Ella Wheeler Wilcox.

Penmanship to Music.

Penmanship is successfully taught to music, and many of the schools are using the phonograph. The local business college will introduce the phonograph in the evening classes, and Prof. Fuller states that it has been a great success in his classes in the past. At Salina, Kan., he had 400 penmanship students in the evening classes, and the phonograph was used entirely. Band music, consisting of marches and waltzes, seems to be the best. The local college will try it out for the first time Monday night, when the evening sessions begin.

Mrs. A. F. Shreve of Pickering was in the city Saturday.

Miss Cora C. Sharp went to Atchison, Kan., her former home, Saturday morning for a few days' visit.

Miss Velma Gray returned Saturday from attending the Clarinda fair and visiting at Burlington Junction with her sister, Mrs. Leon C. Severs.

MIDDLE GROUND FOR PRESIDENT

Taft Not Aligned With Radicals on Either Side.

Peoria, Sept. 23.—President Taft had a heart to heart talk here with the leaders of the different Republican factions in Illinois; defined his position as to progressiveness, pleaded guilty to being a very poor politician, acknowledged again that his ambition had lain in the direction of the office of chief justice rather than the presidency, admitted that he undoubtedly had made many mistakes, but claimed as president he tried to do what he thought to be right. What the future held for him he did not know; he would go ahead and do the best he could.

Mr. Taft declared he was not allied with the extremists of his party, either conservatives or progressives, but had tried to take a middle ground between the two.

He was still cast down by the defeat of the reciprocity agreement in Canada, but his only reference to that subject had come earlier in the day, when he addressed the workingmen in a local manufacturing establishment where farming implements are made.

"I was sorry to hear that in Canada they do not care to have closer relations with us," he said. "If reciprocity had been adopted we could have gotten our agricultural implements into Canada at a substantial increase, but I guess we can get along."

TRADE REVIEW FOR THE WEEK

Gap Between Capacity and Consumption Slowly Closing.

BUSINESS ADJUSTING AFFAIRS

Capital Is Learning to Continue Dealings While Big Problems Are Being Solved, While Unrest Is General. Reports Are More Favorable.

New York, Sept. 23.—Dun's Review of Trade says:

Looking at the situation as a whole it is apparent that the volume of business is much below producing capacity and there is little speculative anticipation of future wants. What is not so clearly appreciated is that the present day requirements of the American people, even on a more economical basis, are increasing with the normal growth of population and that slowly, but surely, the gap between capacity and consumption is being bridged.

That capital is halted in entering upon large enterprises by the signs of the world unrest, which appear now in one country and then in another, which cause disturbance to the international markets, is plain enough, but business men apparently are learning to adjust their affairs gradually to these unsettled conditions and to do business while big problems are being solved.

Mill operations in iron and steel are quite well maintained, since new business shows no marked shrinkage, and it is estimated that the leading interest is working at about 75 per cent of capacity. Further concessions in prices are noted on virtually all finished products, although in the wire trade manufacturers are now asking slight advances over the recent low level.

New England manufacturers of footwear are quite busy on orders for prompt shipments. Staple lines are now receiving chief attention and this adds to the strength of the market. Trade in learther is only moderate.

Bradstreet's Trade Review.

Bradstreet's says: Reports regarding distributive trade are more favorable than they have been for some time. Not only is there a better feeling as to the future, but trade in several lines has improved. Dry goods seem to be in the forefront as regards new demands, thus indicating that recent price reductions had a beneficial effect. Other staple lines, such as groceries, wool, clothing and wearing apparel in general also share in the enlarged buying movement. Hardware, too, is in good demand. Buying of furniture, heretofore very backward, has picked up at several centers, though trade in this line is still below normal. Demand for soft coal has improved and our export trade in flour, and to a larger extent in wheat, makes a satisfactory showing.

At the same time reports as regards retail trade are irregular, this branch of distribution having been helped where autumn-like temperatures prevail, while being deterred where the weather has been warm.

Collections have picked up, especially where crop money is entering into circulation.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

Mrs. G. S. Covey and her daughter, Mrs. M. E. Davis, and daughter, Ruby, of Guilford, who have been guests at the home of their son and brother, N. C. Covey, and family, left for their home Saturday.

PIANO PUBLICITY

By W. A. Lippman

Men Buy 75 per cent of all Player Pianos Sold

Mr. Gustave Behning, secretary and treasurer of the Behning Piano Co., recently called on me after a trip to the Pacific coast.

Mr. Behning said that dealers everywhere had ordered a greater number of player pianos than ordinary pianos.

Also that this increased sale of players was due to free buying of these instruments by men—that men were buying three out of every four player pianos sold.

Men everywhere are awakening to the fact that the modern player piano is peculiarly adapted to their musical needs. Regarded in the beginning as a toy, it is now recognized as the one instrument from which the musically uneducated can produce artistic music.

That is why the player appeals especially to men; few of whom have acquired musical educations. The average boy prefers a licking to a music lesson, and the few who persevere and become proficient only emphasize the overwhelming majority who must depend on others for their music.

High pressure American business life makes frequent mental relief an absolute necessity—the brain must have a rest from its intense daily concentration. The player piano seems to have been created for this particular purpose.

Mr. Business man seats himself at his player after dinner, and at once enters another world—a world of poetry and romance—of light heartedness and joy—a world of harmony—a world of melody which he creates and controls—dominated by HIS expression—HIS musical personality.

Men usually begin by playing ragtime and popular music, but quickly graduate into the REAL music class; all player pianists have a certain acquaintance with the classical—the only music entitled to the name—many of them have an intelligent appreciation of it—a condition impossible for those without musical education—previous to the advent of the player.

The popularity of the player with men is thus easily understood—it provides an easy avenue of escape from business cares—furnishing genuine relaxation—being thus a source of inestimable mental and physical good.

Mr. Business Man, if you think this essay is the least bit overdrawn—step into our store—sit down at one of our player pianos and play—anything you wish—ragtime—musical comedy or grand opera. Take a trip to the land of dreams—listen to the song of the waters—rippling brooks rushing torrents—tumbling waterfalls. Play Chopin's exquisite Nocturnes, Mozart's delightful Sonatas or the wonderful Wagner music at once, massive and harmonious.

You will arise refreshed—at peace with the world—things in general will look better and brighter; you will return to your work with added energy. You will regard the few minutes spent in our store as a good investment.

Speaking of investments—every man should consider the purchase of a player piano. It will pay better dividends in health and happiness than the investment of a similar sum in any other way.

Of course, when you do buy you will go where you can get the greatest service for your money. Now then, as few people are posted regarding the amount of service player pianos in general will render—it becomes necessary to depend on the guarantee the dealer gives you.

The Jesse French Piano Company guarantees its player pianos for Five Years—both piano and player mechanism. Other dealers limit their guarantee to one year.

Come in and look at the Behning—Kranich & Bach—Hobart M. Cable and Lorraine—the only player pianos you see advertised with a five-year guarantee.

Sincerely yours,

R. Lippman

FOODSTUFFS RISE SHARPLY IN PRICE

Following Defeat of Reciprocity Wheat Leads in Advance.

PRICE OF FLOUR GIVEN BOOST.

Oats Also Feel Effects of Canadian Vote and Consumers May Expect Soon to Pay Increased Prices for Breakfast Foods—Beer May Follow.

Chicago, Sept. 23.—Foodstuffs which might have been affected by an influx of Canadian products had Laurier and his government not been defeated in Canada, rose sharply in price in all American supply centers.

Wheat led the advance and was followed by flour when millers ignored their previous price lists and adjusted quotations to figures more commensurate with the advanced cost of the grain staple.

Oats, too, felt the effect of the Canadian vote and as a result consumers may expect soon to pay increased prices for breakfast foods. The initial meal of the day in fact seems destined to bear the brunt of the higher living costs within the next few months, as it needed only the developments in the trading pits to add force to the recent advances in coffee and sugar.

The greatest advance in wheat was recorded at Duluth. There traders were paying as high as 8 cents a bushel more for the grain than before reciprocity was rejected. Minneapolis showed a maximum net advance of 6 cents, paying $1.07½ for this month's delivery.

Increases of a less sensational character were recorded at Kansas City, St. Louis, Omaha and Chicago.

It is by no means certain that the advance in the price of wheat and allied foodstuffs indicate that the maximum has been reached. One of the leading wheat traders advanced the opinion that spring wheat is due to increase 20 cents a bushel.

A further blow to the consumer, or at least a section of him, may result when malsters have studied the situation in the barley markets. In some centers there were wild flurries in that grain, the price advancing as much as 8 cents.

This, if maintained, probably will mean increased cost of materials to brewers, and as has been the history of previous similar conditions, the smaller sized beer glasses may again become popular with saloonkeepers.

He refusal medical treatment, insisting that he was not injured.

STEEL PRICES HARD HIT

Stock Market is Overwhelmed by Fierce Outburst.

New York, Sept. 23.—The stock market was overwhelmed by a wild outburst of selling, which for a time resulted in demoralization and swift depreciation in market values. Alarm at the reports of approaching dissolution of the United States Steel corporation resulted in an enrmous volume of selling by holders of the corporation's stock in all parts of the country and in Europe. A general recovery followed just before the close.

ENFORCING ANTI-TRUST LAWS

Statement of Position of Government Toward Combines.

RESTRAINT OF TRADE TO STOP

Department Will Not Undertake to Act as Universal Counsel for the Trusts—May Consider Reorganization Plans.

Washington, Sept. 23.—Recent reports to the effect that attorneys for large combinations or corporations and their principals also were hoping for some general understanding with the government authorities concerning the application of the anti-trust law and that some of them had gone to the attorney general to ascertain what action, if any, may be necessary to make them stand right in the eyes of the government was the subject of much discussion here.

The following is said to be the attitude of the department of justice:

"The position of the attorney general is that since the decisions of the supreme court in the oil and tobacco cases, to quote the language employed by him in his speech at Battle Creek, Mich., 'the area of uncertainty in the law' has been greatly reduced and the meaning of the statute in its application to great monopolistic corporations made clear, and this makes it necessary for those combinations to resolve themselves into a number of distinct, separate entities, no one of which will be in itself a combination in restrain of trade or threaten monopoly. How this shall be done is, of course, a separate problem in each case—a problem which, in the first instance, those in control of the combinations and their counsel must work out.

Not Adviser of Trusts

"The law department of the government cannot undertake to act as universal counsel for the trusts. It is preparing to bring before the court all the combinations which appear in clear violations of the law. If the courts agree with the government's views they will doubtless follow the precedents set by the supreme court in the tobacco case, and by the United States circuit court in the Third circuit in the powder case, and decree the combination to be illegal and give to it a reasonable time to reorganize in conformity with the law, under penalty of injunction or receivership if it should fail to do so.

"The plan of reorganization must be such as the government may acquiesce in; or it would be compelled to oppose its approval by the court. But the final approval is for the court to make.

Harvester Case Cited.

"In the case of the Harvester company, that corporation voluntarily submitted to the government its plan of reorganization before suit was brought, and while not going so far as the officials of the department of justice considered it should go, the representatives of the Harvester company evinced a willingness to conform, if possible, to the views of the department and to make such changes as it should deem necessary to comply with the law."

RECIPROCITY PACT IS DEAD

Not Likely to Be Heard of Again Soon in Canadian House.

Montreal, Sept. 23.—Canada is confronted by a startling new situation, developed from the fact that reciprocity with the United States has been rejected, that the Laurier government has been defeated and that R. L. Borden will shortly be called on to form a Conservative ministry. That the changes enacted by the registration of the will of the electorate are radical is shown by the overwhelming majority whereby the voters turned down the agreement which Laurier had made with the United States for the mutual removal of duties on food and other natural products, by the defeat of seven cabinet ministers out of thirteen who went to the polls, and by the political landslide which will retire to private life Sir Wilfrid Laurier, one of the biggest figures in the British empire.

As for the reciprocity agreement, it is not likely to be heard of again soon in the Canadian house. Any measure of this kind must be introduced from the government side and it is not likely that Mr. Borden and his followers will make any move in the matter. There is considerable interest manifested in the view which the people of the United States will take of the overwhelming rejection of reciprocity.

Miss Piper of Weissert Shoots Self.

Broken Bow, Neb., Sept. 23.—Bernice Piper, a well known young woman residing near Weissert, shot herself, perhaps fatally, with suicidal intent. The bullet entered the left breast and struck a rib. The girl's mother died a short time ago, leaving her with the care of a family, and despondency is thought to be the cause of her action.

Ready for Stephenson Case.

Milwaukee, Sept. 23.—Henry Webber, secret service assistant of the United States senate sergeant-at-arms, has completed his efforts to serve subpoenas on those who are to appear in the Stephenson investigation by a senate committee. The investigation begins in October.

RELIGIOUS CENSUS

TAKEN OF THE STUDENTS OF THE STATE NORMAL SCHOOL.

TALK BY LIBRARIAN WELLS

At Chapel Friday Morning on Chili—152 Church Members Out of an Enrollment of 246.

The Ministerial Alliance of this city has been taking a religious census at the Normal the past week. This is done in order to acquaint the ministers of the different churches with the out-of-town students and to personally invite them to attend the church services. Each student fills out a card with his name, city residence, church membership, or if not a church member the church he prefers. Out of 246 students enrolled 152 are members of a church. They are distributed in the churches as follows:

Methodist Episcopal, 46.
First Christian, 41.
First Baptist, 24.
Methodist Episcopal, South, 17.
Presbyterian, 14.
Catholic, 10.

One of the most interesting and practical talks that has been given at the Normal chapel was Prof. C. E. Wells' talk Friday morning on the social and political affairs of Chili.

Mr. Wells just lately returned from Chili, where he was employed in the capacity of secretary to the United States minister to that country.

"By far the most interesting feature of the forty days sea voyage," said Mr. Wells, "was the passing through the Strait of Magellan. The scenery on the coast and far into the interior is beautiful beyond description."

Mr. Wells discussed briefly the public school system, the customs of the people, the climate and structure of the country, and the excellent government. Mr. Wells closed his talks with an invitation to the students to come to the library and read something of the history of the South American Republic and the biograph of some of her national heroes.

SHOW CROWD FRIDAY WAS VERY ORDERLY

IN DITCH ALL NIGHT

JOHN NICHOLAS' CRIES FOR HELP WERE UNHEEDED.

STRICKEN WITH PARALYSIS

Without Recovering Consciousness He Died—Funeral at Burlington Junction Sunday.

John Nicholas, a bachelor farmer, who made his home with his brother, Henry Nicholas, three miles southeast of Burlington Junction, died at his brother's home Friday night as the result of a stroke of paralysis that came on him a week previous.

Mr. Nicholas left his brother's home about 7:30 o'clock the evening of September 14 to get some of his horses that had strayed from his pasture to the home of S. S. Webb, a neighbor. While returning home with the animals and when within a quarter of a mile from home, he was stricken with paralysis and fell into a ditch at the side of the road. He cried out for help, and his calls were distinctly heard by the Webb and Nicholas families, but each thought it was some one out making merry and gave the calls no heed.

The unfortunate man laid unconscious by the road all night. A rain fell in the night, and the exposure made his chances for recovery very improbable.

He was found the next morning by his brother, who passed on the road with a team and plow. His horses shied at the object in the ditch, and when Mr. Nichalos saw it was a man lying there he ran to the Webb house for assistance, but he did not know the man was his brother until he returned with Mr. Webb.

A physician was summoned at once and the sick man was taken to the Nicholas home. He was unable to speak before he died.

His brothers and sisters, Henry Nicholas, Thomas Nicholas of Fort Collins, Col.; P. L. Nicholas and Mrs. William Alderman of Stanton, Neb., and Mrs. William Dobson of Edgar, Neb., were all with him when death came and for several days previous.

The funeral will be held at 10 o'clock Sunday morning at the Junction. Burial will take place in the Junction cemetery.

PRESIDENT OF WHAT?

Every time the President speaks in defense of his vetoes of the tariff revision bills he makes bis case worse than it was. If he continues at the present rate he will soon have convicted himself not only of bad judgment but of unpatriotic motives as well.

His last speech, delivered at Grand Rapids, Mich., prompts the question, "Is Mr. Taft President of the United States or of the Republican party?" Speaking of the wool bill he said: "I had no adequate information, and had been furnished none, upon which I could say that the bill presented to me was in accord with the Republican platform of protection upon which I was elected, and to which I am in honor bound to square my offical act and policy."

Mr. Taft did have adequate information that the tariff law enacted by the protected interests following his election was not satisfactory to the people who elected him. He had adequate information that a relief from this oppressive law was demanded. This information was afforded in the Congressional elections that followed the signing of that bill when a stand pat Republican majority was swept out of the House of Representatives and the control of the Senate was turned over to the Democrats and Progressive Republicans.

The force that this emphatic information carried to everybody except the President is seen in the fact that a divided Congress, one branch Democratic and one branch Republican, responded in the best compromise measures upon which they could agree. Both House and Senate surrendered something to the other and produced bills giving an acceptable degree of relief which the President promptly vetoed because he was not sure that they conformed to the specific declarations of the Republican platform.

This platform with which the President now hopes to shield his errors calls for protection equal to the difference between the cost of production at home and abroad, together with "a reasonable profit" to the producer. The joker is in the "reasonable profit" declaration. Who is there to say but the manufacturer when he has a reasonable profit? And when did a manufacturer ever admit that he was making more than a reasonable profit?

Rather than accept the judgment of more than 225 members of the House and two-thirds of the Senate composed of both Democrats and Republicans, Mr. Taft preferred to wait upon a raw tariff board created by himself without warrant of law to say what relief the American people should have.

The constitution does not contemplate the possibility of a presidential veto except when the President absolutely knows the bill to be bad, nor does the constitution contemplate the veto of a bill passed by a decisive majority in Congress fresh from the people simply because the President is not convinced that it conforms to some particular party platform already repudiated by the people.

Mr. Taft does not seem to regard the tremendous effort required to pass an acceptable bill through a divided Congress nor the impossibility of passing a bill through a Democratic House and a progressively controlled Senate that will conform to the exact specifications of a stand pat platform.

Which Are You?

The two kinds of people on earth I mean
Are the people who lift and the people who lean.

Wherever you go you will find the world's masses
Are always divided in just these two classes.

And oddly enough, you will find, too, I ween,
There is only one lifter to twenty who lean.

In which class are you? Are you easing the load
Of overtaxed lifters who toil down the road?

Or are you a leaner, who lets others bear
Your portion of labor and worry and care?

—Ella Wheeler Wilcox.

Penmanship to Music.

Penmanship is successfully taught to music, and many of the schools are using the phonograph. The local business college will introduce the phonograph in the evening classes, and Prof. Fuller states that it has been a great success in his classes in the past. At Salina, Kan., he had 400 penmanship students in the evening classes, and the phonograph was used entirely. Band music, consisting of marches and waltzes, seems to be the best. The local college will try it out for the first time Monday night, when the evening sessions begin.

Mrs. A. F. Shreve of Pickering was in the city Saturday.

Miss Cora C. Sharp went to Atchison, Kan., her former home, Saturday morning for a few days' visit.

Miss Velma Gray returned Saturday from attending the Clarinda fair and visiting at Burlington Junction with her sister, Mrs. Leon C. Severs.

Miss Elizabeth Simonieg and Mrs. John Allen and daughter, Margaret, of Clyde were shopping in the city Saturday.

MIDDLE GROUND FOR PRESIDENT

Taft Not Aligned With Radicals on Either Side.

Peoria, Sept. 23.—President Taft had a heart to heart talk here with the leaders of the different Republican factions in Illinois; defined his position as to progressiveness, pleaded guilty to being a very poor politician, acknowledged again that his ambition had lain in the direction of the office of chief justice rather than the presidency, admitted that he undoubtedly had made many mistakes, but claimed as president he tried to do what he thought to be right. What the future held for him he did not know; he would go ahead and do the best he could.

Mr. Taft declared he was not allied with the extremists of his party, either conservatives or progressives, but had tried to take a middle ground between the two.

He was still cast down by the defeat of the reciprocity agreement in Canada, but his only reference to that subject had come earlier in the day, when he addressed the workingmen in a local manufacturing establishment where farming implements are made.

"I was sorry to hear that in Canada they do not care to have closer relations with us," he said. "If reciprocity had been adopted we could have gotten our agricultural implements into Canada at a substantial increase, but I guess we can get along."

TRADE REVIEW FOR THE WEEK

Gap Between Capacity and Consumption Slowly Closing.

BUSINESS ADJUSTING AFFAIRS

Capital Is Learning to Continue Dealings While Big Problems Are Being Solved, While Unrest Is General. Reports Are More Favorable.

New York, Sept. 23.—Dun's Review of Trade says:

Looking at the situation as a whole it is apparent that the volume of business is much below producing capacity and there is little speculative anticipation of future wants. What is not so clearly appreciated is that the present day requirements of the American people, even on a more economical basis, are increasing with the normal growth of population and that slowly, but surely, the gap between capacity and consumption is being bridged.

That capital is halted in entering upon large enterprises by the signs of the world unrest, which appear now in one country and then in another, which cause disturbance to the international markets, is plain enough, but business men apparently are learning to adjust their affairs gradually to these unsettled conditions and to do business while big problems are being solved.

Mill operations in iron and steel are quite well maintained, since new business shows no marked shrinkage, and it is estimated that the leading interest is working at about 75 per cent of capacity. Further concessions in prices are noted on virtually all finished products, although in the wire trade manufacturers are now asking slight advances over the recent low level.

New England manufacturers of footwear are quite busy on orders for prompt shipments. Staple lines are now receiving chief attention and this adds to the strength of the market. Trade in leather is only moderate.

Bradstreet's Trade Review.

Bradstreet's says: Reports regarding distributive trade are more favorable than they have been for some time. Not only is there a better feeling as to the future, but trade in several lines has improved. Dry goods seem to be in the forefront as regards new demands, thus indicating that recent price reductions had a beneficial effect. Other staple lines, such as groceries, wool, clothing and wearing apparel in general also share in the enlarged buying movement. Hardware, too, is in good demand. Buying of furniture, heretofore very backward, has picked up at several centers, though trade in this line is still below normal. Demand for soft coal has improved and our export trade in flour, and to a larger extent in wheat, makes a satisfactory showing.

At the same time reports as regards retail trade are irregular, this branch of distribution having been helped where autumn-like temperatures prevail, while being deterred where the weather has been warm.

Collections have picked up, especially where crop money is entering into circulation.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

Mrs. G. S. Covey and her daughter, Mrs. M. E. Davis, and daughter, Ruby, of Guilford, who have been guests at the home of their son and brother, N. C. Covey, and family, left for their home Saturday.

PIANO PUBLICITY

By W. A. Lippman

Men Buy 75 per cent of all Player Pianos Sold

Mr. Gustave Behning, secretary and treasurer of the Behning Piano Co., recently called on me after a trip to the Pacific coast.

Mr. Behning said that dealers everywhere had ordered a greater number of player pianos than ordinary pianos.

Also that this increased sale of players was due to free buying of these instruments by men—that men were buying three out of every four player pianos sold.

Men everywhere are awakening to the fact that the modern player piano is peculiarly adapted to their musical needs. Regarded in the beginning as a toy, it is now recognized as the one instrument from which the musically uneducated can produce artistic music.

That is why the player appeals especially to men; few of whom have acquired musical educations. The average boy prefers a licking to a music lesson, and the few who persevere and become proficient only emphasize the overwhelming majority who must depend on others for their music.

High pressure American business life makes frequent mental relief an absolute necessity—the brain must have a rest from its intense daily concentration. The player piano seems to have been created for this particular purpose.

Mr. Business man seats himself at his player after dinner, and at once enters another world—a world of poetry and romance—of light heartedness and joy—a world of harmony—a world of melody which he creates and controls—dominated by HIS expression—HIS musical personality.

Men usually begin by playing ragtime and popular music, but quickly graduate into the REAL music class; all player pianists have a certain acquaintance with the classical—the only music entitled to the name—many of them have an intelligent appreciation of it—a condition impossible for those without musical education—previous to the advent of the player.

The popularity of the player with men is thus easily understood—it provides an easy avenue of escape from business cares—furnishing genuine relaxation—being thus a source of inestimable mental and physical good.

Mr. Business Man, if you think this essay is the least bit overdrawn—step into our store—sit down at one of our player pianos and play—anything you wish—ragtime—musical comedy or grand opera. Take a trip to the land of dreams—listen to the song of the waters—rippling brooks 'nshing torrents—tumbling waterfalls. Play Chopin's exquisite Nocturnes, Mozart's delightful Sonatas or the wonderful Wagner music at once, massive and harmonious.

You will arise refreshed—at peace with the world—things in general will look better and brighter; you will return to your work with added energy. You will regard the few minutes spent in our store as a good investment.

Speaking of investments—every man should consider the purchase of a player piano. It will pay better dividends in health and happiness than the investment of a similar sum in any other way.

Of course, when you do buy you will go where you can get the greatest service for your money. Now then, as few people are posted regarding the amount of service player pianos in general will render—it becomes necessary to depend on the guarantee the dealer gives you.

The Jesse French Piano Company guarantees its player pianos for Five Years—both piano and player mechanism. Other dealers limit their guarantee to one year.

Come in and look at the Behning—Kranich & Bach—Hobart M. Cable and Lorraine—the only player pianos you see advertised with a five-year guarantee.

Sincerely yours,

R. Lippman

FOODSTUFFS RISE SHARPLY IN PRICE

Following Defeat of Reciprocity Wheat Leads in Advance.

PRICE OF FLOUR GIVEN BOOST.

Oats Also Feel Effects of Canadian Vote and Consumers May Expect Soon to Pay Increased Prices for Breakfast Foods—Beer May Follow.

Chicago, Sept. 23.—Foodstuffs which might have been affected by an influx of Canadian products had Laurier and his government not been defeated in Canada, rose sharply in price in all American supply centers.

Wheat led the advance and was followed by flour when millers ignored their previous price lists and adjusted quotations to figures more commensurate with the advanced cost of the grain staple.

Oats, too, felt the effect of the Canadian vote and as a result consumers may expect soon to pay increased prices for breakfast foods. The initial meal of the day in fact seems destined to bear the brunt of the higher living costs within the next few months, as it needed only the developments in the trading pits to add force to the recent advances in coffee and sugar.

The greatest advance in wheat was recorded at Duluth. There traders were paying as high as 8 cents a bushel more for the grain than before reciprocity was rejected. Minneapolis showed a maximum net advance of 6 cents, paying $1.07½ for this month's delivery.

Increases of a less sensational character were recorded at Kansas City, St. Louis, Omaha and Chicago.

It is by no means certain that the advance in the price of wheat and allied foodstuffs indicate that the maximum has been reached. One of the leading wheat traders advanced the opinion that spring wheat is due to increase 20 cents a bushel.

A further blow to the consumer, or at least a section of him, may result when malsters have studied the situation in the barley markets. In some centers there were wild flurries in that grain, the price advancing as much as 8 cents.

This, if maintained, probably will mean increased cost of materials to brewers, and as has been the history of previous similar conditions, the smaller sized beer glasses may again become popular with saloonkeepers.

STEEL PRICES HARD HIT

New York, Sept. 23.—The stock market was overwhelmed by a wild outburst of selling, which for a time resulted in demoralization and swift depreciation in market values. A general recovery followed just before the close.

ENFORCING ANTI-TRUST LAWS

Statement of Position of Government Toward Combines.

RESTRAINT OF TRADE TO STOP

Department Will Not Undertake to Act as Universal Counsel for the Trusts—May Consider Reorganization Plans.

Washington, Sept. 23.—Recent reports to the effect that attorneys for large combinations or corporations and their principals also were hoping for some general understanding with the government authorities concerning the application of the anti-trust law and that some of them had gone to the attorney general to ascertain what action, if any, may be necessary to make them stand right in the eyes of the government was the subject of much discussion here.

The following is said to be the attitude of the department of justice:

"The position of the attorney general is that since the decisions of the supreme court in the oil and tobacco cases, to quote the language employed by him in his speech at Battle Creek, Mich., 'the area of uncertainty in the law' has been greatly reduced and the meaning of the statute in its application to great monopolistic corporations made clear, and this makes it necessary for those combinations to resolve themselves into a number of distinct, separate entities, no one of which will be in itself a combination in restrain of trade or threaten monopoly. How this shall be done is, of course, a separate problem in each case—a problem which, in the first instance, those in control of the combinations and their counsel must work out.

Not Adviser of Trusts

"The law department of the government cannot undertake to act as universal counsel for the trusts. It is preparing to bring before the court all the combinations which appear in clear violations of the law. If the courts agree with the government's views they will doubtless follow the precedents set by the supreme court in the tobacco case, and by the United States circuit court in the Third circuit in the powder case, and decree the combination to be illegal and give to it a reasonable time to reorganize in conformity with the law, under penalty of injunction or receivership if it should fail to do so.

"The plan of reorganization must be such as the government may acquiesce in; or it would be compelled to oppose its approval by the court. But the final approval is for the court to make.

Harvester Case Cited.

"In the case of the Harvester company, that corporation voluntarily submitted to the government its plan of reorganization before suit was brought, and while not going so far as the officials of the department of justice considered it should go, the representatives of the Harvester company evinced a willingness to conform, if possible, to the views of the department and to make such changes as it should deem necessary to comply with the law."

RECIPROCITY PACT IS DEAD

Not Likely to Be Heard of Again Soon in Canadian House.

Montreal, Sept. 23.—Canada is confronted by a startling new situation, developed from the fact that reciprocity with the United States has been rejected, that the Laurier government has been defeated and that R. L. Borden will shortly be called on to form a Conservative ministry. That the changes enacted by the registration of the will of the electorate are radical is shown by the overwhelming majority whereby the voters turned down the agreement which Laurier had made with the United States for the mutual removal of duties on food and other natural products, by the defeat of seven cabinet ministers out of thirteen who went to the polls, and by the political landslide which will retire to private life Sir Wilfrid Laurier, one of the biggest figures in the British empire.

As for the reciprocity agreement, it is not likely to be heard of again soon in the Canadian house. Any measure of this kind must be introduced from the government side and it is not likely that Mr. Borden and his followers will make any move in the matter. There is considerable interest manifested in the view which the people of the United States will take of the overwhelming rejection of reciprocity.

Miss Piper of Weissert Shoots Self.

Broken Bow, Neb., Sept. 23.—Bernice Piper, a well known young woman residing near Weissert, shot herself, perhaps fatally, with suicidal intent. The bullet entered the left breast and struck a rib. The girl's mother died a short time ago, leaving her with the care of a family, and despondency is thought to be the cause of her action.

Ready for Stephenson Case.

Milwaukee, Sept. 23.—Henry Webber, secret service assistant of the United States senate sergeant-at-arms, has completed his efforts to serve subpoenas on those who are to appear in the Stephenson investigation by a senate committee. The investigation begins in October.
